

**Vois-Pro Series**

**Model: QD CORD**

**Optional Quick Disconnection  
QD CORD**

QD cord is one of the connectors between headset to telephone or PC. The standardised QD (Quick Disconnect) plug will fit most headsets, while there's a RJ9 connector for the majority of desk phones. Connection flexibility allows different headsets to be used with different bases. For 2.5mm or 3.5mm jack-equipped models add connectivity to PC without USB.
